250mm X 300mm	COLOR : WHITE
300mm X 300mm	

ABOUT,

Designers love our access door because our designs are elegant, and visually appealing. The panels are easily finished to match surrounding areas—whether with tile, wallpaper, paint and other. The options are only as limited as your imagination. The quality of our bauco wall or plumbing access panel has become the industry standard for high-end construction projects..

This is a revolution in access panel appearance adding the missing element in a concealed finish to your access doors for plumbing and others.

Benefits:

- Virtually invisible access opening
- Clean, continuous surfaces without visible hardware
- Apply your choice of surface treatments directly to the door leaf
- Superior acoustics
- Lightweight
- Economical

INSTALLATION STEP:

Step 1 – Install the frame

step 2 – Bond tile on to panel

Step 3 – Slot panel to frame

Step 4 – Close and done
