

GENERAL STANDARD OPERATING PROCEDURE (SOP) VGM AND CHARGES FOR JOHOR

1.0. Amendments to SOLAS Chapter VI, Part A, Regulation 2 - Verified Gross Mass (Weight).

1.1. Summary of SOLAS VGM regulation change:

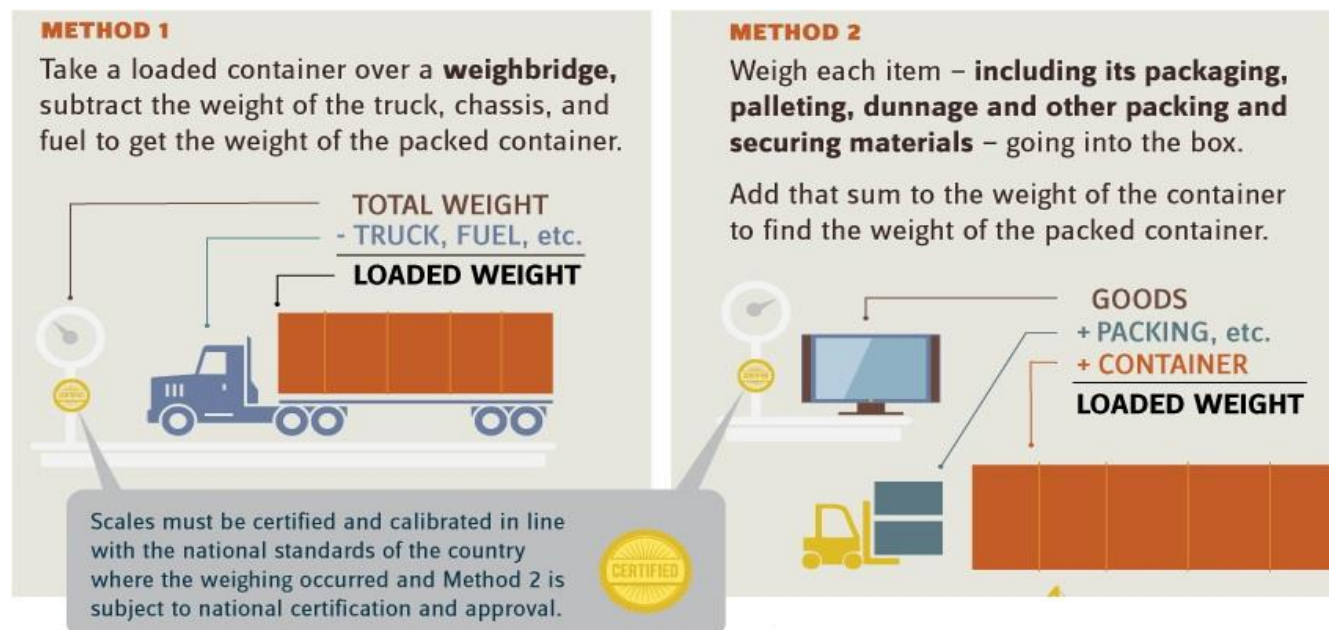

1.1.1. A shipper must verify the gross mass of a container by either *one of two methods*:

- i. Weighing the container after it has been packed using calibrated and certified equipment or;
- ii. Weighing all the cargo and contents of the container and adding those weights to the container's tare weight using a certified and approved method.

1.2. The shipper must ensure that the verified gross mass is stated in the shipping document and submitted to the *ship master and terminal operator for stowage planning*.

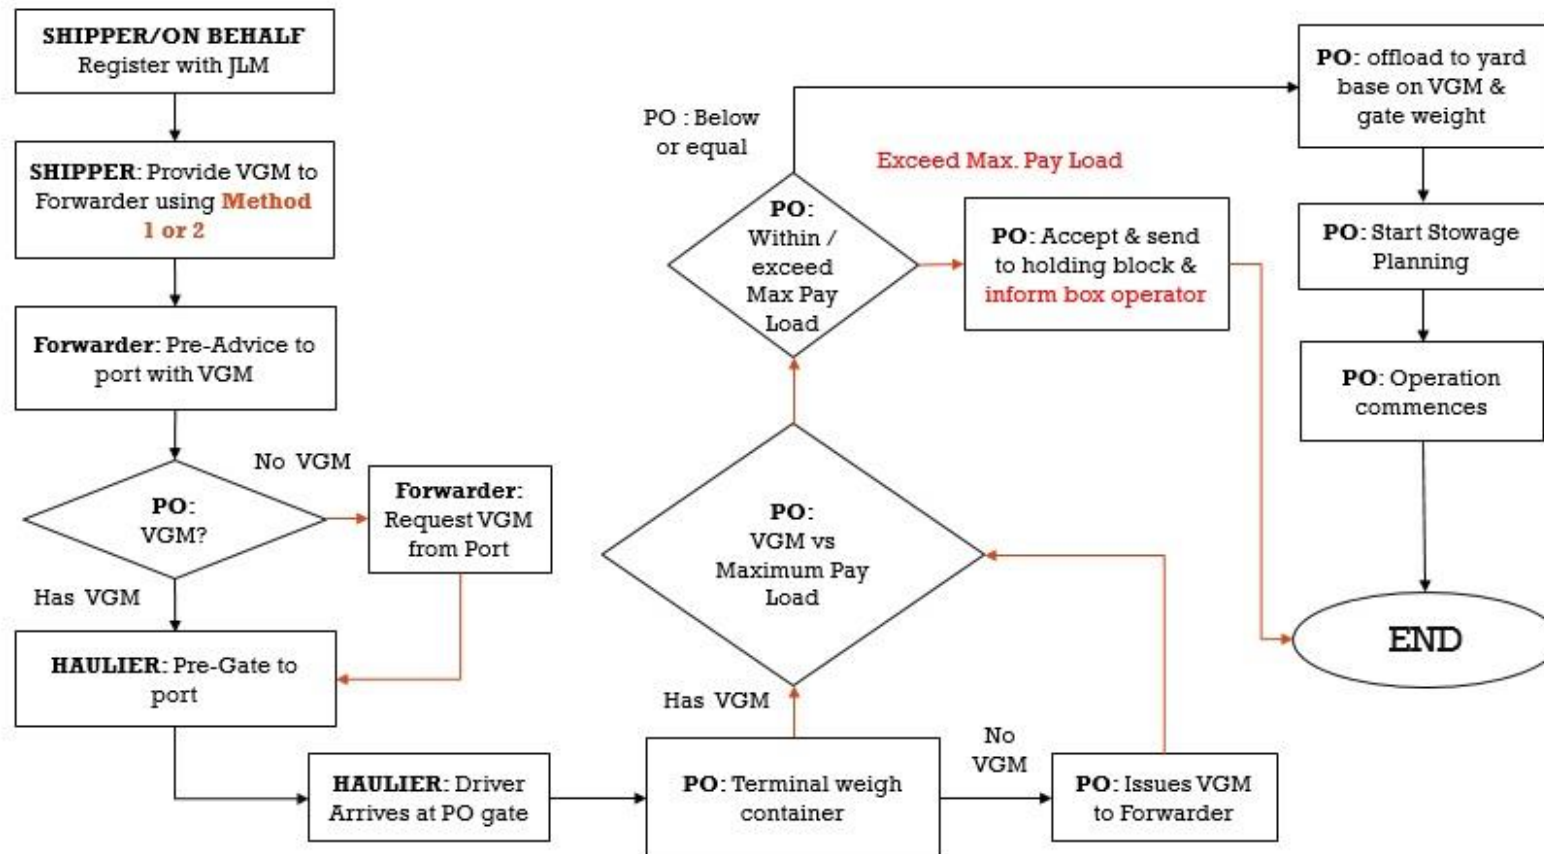

1.3. If the verified gross mass is not obtained by the ship master and terminal operator, the container cannot be loaded on the ship.

2.0. Illustration of method under SOLAS.

3.0. Johor Port Authority – SOLAS (VGM) Export Flow for JOHOR PORT (JPB) & PORT OF TANJUNG PELEPAS (PTP).
