### Product selection and applications

With a new brand, we have a new set of product names. The new list unites all of the popular DMS and Pilkington products, but reorganises them under easy-to-follow benefit categories. Each category is identified by a symbol representing the application. Many glass products are multi-purpose or can be manufactured to perform many functions.

| Old Product Name                 | Product Type          | New Product Name                 | Product Type                             |
|----------------------------------|-----------------------|----------------------------------|--|
| Optifloat †                      | Clear and Toned       | <b>VFloat™</b>                   | Clear and Toned                          |
| Optiwhite †                      |                       | <b>VFloat SuperClear™</b>        | SuperClear™                              |
| Optilam †                        | Clear and Toned       | <b>VLam™</b>                     | Clear and Toned                          |
| DMS Envirolam™                   |                       |                                  |  |
| Armourfloat †                    | Clear and Toned       | <b>VTough™</b>                   | Clear and Toned                          |
| DMS Toughglass™                  |                       |                                  |  |
| EverGreen †                      |                       | <b>VFloat SuperGreen™</b>        | SuperGreen                               |
| Supergrey †                      |                       | <b>VFloat SuperGrey™</b>         | SuperGrey                                |
| Arctic Blue †                    |                       | <b>VFloat SuperBlue™</b>         | SuperBlue                                |
| Eclipse Advantage †              | Clear                 | <b>EVantage™</b>                 | Clear                                    |
|                                  | Bronze                | <b>EVantage™</b>                 | Bronze                                   |
