

## SOL – SUD

### GENERAL DESCRIPTION

A concentrated biodegradable hard surface cleaner. It contains no phosphates and is safe to personnel and on equipment.

### ADVANTAGES

- Convenient liquid form for quick mixing completes solubility.
- Non-flammable and no objectionable odor
- Will not harm good paint work when used in diluted concentration
- Out-performing any soap based detergent
- Superior detergency and free rinsing
- Easy to apply by brush, mop, steam, foam or pressurized spray equipment.

### APPLICATION

Sol-Sod is specially recommended for cleaning and degreasing of oil, grease, dirt and light carbon deposit from the following surfaces and equipment.

#### 1. **Non-Porous Surfaces**

Aluminum, brass, copper, chrome, fiberglass, formica, glass, metal, painted surfaces (including cars, buses or trucks), plastic porcelain, stainless steel and tyres.

#### 2. **Floor Surfaces**

Asphalt, carpet, ceramic, concrete, linoleum, marble, wood, terrazzo and vinyl.

#### 3. **Equipment**

Industrial equipment, machinery, engines etc.

### CLEANING METHODS

**Non-porous Surfaces** : wiping, brushing etc

**Floor Surfaces** : mopping or by auto scrubber

**Equipment** :wiping, brushing or use in steam cleaner

### DILUTION RATIO

Depend on the degree of dirt, oil and grease. Sol-Sud has to be diluted according to the following recommendations.

#### **Light/Daily Cleaning** :

1 part with 30 parts water

#### **Medium Duty Cleaning:**

1 part with 10 parts water

#### **Heavy Duty Cleaning** :

1 part with 1 to 4 parts water

#### **Steam/High Pressure Cleaning:**

1 part with 10 parts water in detergent tank (and follow manufacturer's operating instructions)

### PRODUCT SPECIFICATIONS

Appearance	: Pink liquid
Boiling point	: 100°C
Specific Gravity	: 1.04 @ 25°C
Solubility	: Complete
pH Value	: 10.4
Stability	: within 2 years

### HANDLING PRECAUTIONS

No special precautions are needed. However, it is always good practice to avoid skin contact. Rubber gloves are recommended. In case of contact with skin or eyes, flush thoroughly with water. Do not take internally.
