

Portable wheel load scales

**RW8.1** 

**Product information** 

### **Description**

With this wheel-/axle load scale, you have a powerful weighing system for the individual wheel load, axle load and total weight of vehicles. Up to four wheel load scales can be connected to a hand terminal by cable. Depending on the system, various functions such as left-hand wheel load, right-hand wheel load, axle load and total load can be captured on the hand terminal. Naturally, each system can be tared.

These wheel-/axle load scales are easily transported in a car, and can be set to work on site by one person. The use of the latest technology means it is no longer necessary to centre the wheels accurately on the weighing platforms. The special mechanical construction allows the platforms to be used without approach ramps.

Optionally, measurement data can be displayed on a PC using wheel-load-scale software; the data can also be saved, incorporated in reports, and exported to Microsoft Excel. This makes a hand terminal unnecessary.

#### **Features**

I very high accuracy
I low self-weight
I shallow construction
I nominal loads 1000 / 2000 / 8000 kg
(other nominal loads on request)
I anti-slip rubber feet
I maintenance-free
I optional axle load summation for
2-platform systems

### **Applications**

I vehicle weighing
I vehicle load distribution
I chassis adjustment
I support load determination on cranes

#### **Technical data**

Туре	Nominal load	Sensitivity / display increments *	Accuracy *	Self-weight
RW 8.1 / 1000	1000 kg	1 kg	±1 kg	15.1 kg
RW 8.1 / 2000	<b>2000</b> kg	1 kg	±1 kg up to 400 kg ±2 kg above 400 kg	15.1 kg
RW 8.1 / 8000	8000 kg	5kg	±5 kg up to 500 kg ±10 kg up to 5000 kg ±15 kg above 5000 kg	17.6 kg

Number of weighing platforms 11

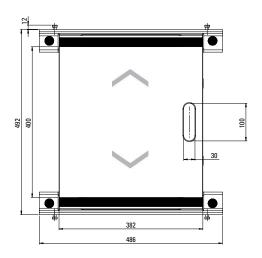

1 to 4

Supply

plug-in power supply 220 V / 12 V DC

Alternative: mobile power supply or connection to vehicle's electrical system 12 VDC

## **Dimensions**

Weighing area w 382 mm x l 400 mm Height 40 mm

measurements in mm

# **Evaluation on hand terminal**

HT3.2 2-platform systems display of each wheel load and the axle load display of total load by adding the axle loads

HT 4.2 2-platform systems integrated printer display of each wheel load and the axle load print-out with all axle loads print-out of total load by adding the axle loads

HT3.4 2/4-platform systems display of wheel loads, axle loads and the total load

HT 4.4 2/4-platform systems integrated printer display and printout of wheel, axle and total loads

## **Evaluation on a PC**

RW-Software 2.0 (without hand terminal)

For up to 20 wheel load scales Displays all weighing data Prepares a weighing report Export to Microsoft Excel Operating systems: Win 2000, XP, Vista, Win 7

# Accessories

Ramps

Aluminium treadplate w 460 x l 180 x h 40 mm

<sup>\*</sup> other accuracies and sensitivities on request
