THE CRACK EXPERT:

Dr. Zack Lim
Principal of Academy of Concrete Technology (Malaysia)
Managing Director of Zacklim Flat Floor Specialist (Malaysia)

DR. ZACK LIM who is well known as the “Guru of Concrete Floor Cracks” in the Asia flooring circle is a seasoned super flat floor specialist whom passion is to constitute best practices in the construction industry by coalescing both theoretical and hands-on knowledge into work cultures. Dr. Zack has amassed over 35 year experiences as an innovative building contractor who constantly strives for excellence in delivering works of the highest quality to all his clients. Dr. Zack works closely with diverse concrete specialists and professors from renowned universities in Malaysia, Karachi, India, Egypt and USA. He is often invited as a guest speaker by various key players in the Malaysia construction industry. In fact, his articles and stories was covered twice in the Malaysian top English newspaper – The Star, and he has also been invited twice as a guest by Malaysia’s national television channel to confer on his entrepreneurship, passions and contributions in raising the standard of Malaysia’s concrete flooring industry.

Today, floor specification and finishes is getting popular due to higher demand and expectation by owners, as such it is important to understand the different types of floor standard and how to specify the right floor specification. In his pursuit in establishing the best practices in concrete flooring which involves in-depth analysis and understanding of the peculiarities and properties of concrete, Dr. Zack has then inaugurated Academy of Concrete Technology Sdn Bhd (AoCT) in year 2014 to inculcate professionalism and best practices into the industry by conducting seminars and talks with his motto of “Learn and Do It Right”. Over the years, AoCT had received plaudits from participants who came from around the globe. One of the most remarkable sentiment given by a participant was - “the knowledge shared by Dr. Zack is a treasure that cannot be gained nowhere or even be bought by gold”.
