

## Endlessly versatile. Relentlessly effective.

Monument® 75WG is the premier warm-season turfgrass herbicide for residential lawns\*, commercial turf, sports fields, golf courses and sod farms. Post-emergent broadcast or spot treatments can control all major sedges along with 40 other weed/grass types including dandelion, crabgrass (*suppression*), nutsedge, clover and spurge. Its proven versatility is available in 0.5-gram single-dose packets and larger, 25-gram packages.

### Effective weed control for treatments of any size.

Monument 75WG is available in single-dose packets as well as 25-gram packages.

- Single-dose water-soluble packets make handling and mixing easy. Simply mix one 0.5-gram packet with 2 gallons of water in a backpack or handheld sprayer.
- For use on small areas or spot treatments, the single dose packages provide maximum convenience and a very affordable price point.
- For larger applications, five individual 5-gram packets (contained in the 25-gram package) offer the lowest price point.

### Lawn beauty is no longer high-maintenance.

Designed for uptake in both shoots and roots, Monument 75WG is effective after one application in most cases.

- It controls 40 weed/grass types including the top five\*\* lawn weeds: dandelion, crabgrass (*suppression*), nutsedge, clover, and spurge.
- All major sedges including Purple nutsedge, Yellow nutsedge, and Kyllinga are controlled at low use rates.
- Cool-season grasses are easily removed from established warm-season turf.
- Customers will not notice odor or see staining following applications.

### The widest application window is no window at all.

Monument 75WG delivers the broad-spectrum control you need in every season, including periods of extended cold temperatures.

- In the spring and summer, it controls all major sedges and summer annuals including oxalis, crabgrass and dandelion.
- In the late summer and early fall, it works well for bermudagrass clean-up.
- In the winter, it controls cool-season annuals such as *Poa annua*, clover and henbit.

\*Monument can be used on residential lawns except in California

\*\*2011, Specialty Products Consultants, LLC. (Primary weed controlled with selective post-emergent herbicide, top five mentions: dandelion, crabgrass (*suppression*), nutsedge, clover and spurge)

**Versatility pairs well with other herbicides.**

The 5-gram packets of Monument 75WG are an excellent tank mix partner with other herbicides for broadcast applications.

- It can be mixed with Barricade® herbicide for spring cleanup and pre-emergent residual.
- It can be mixed with Princep® Liquid herbicide in late September to remove remaining summer weeds (see label for rates and details).
