SP MAX CORE MICROPROCESSORS

The core to the **SP Max Drive** program are the Max Core microprocessors that offer the ultimate charger to battery to tool interface to improve outright performance. We have embedded microprocessors in all three components to give users longer run times, charge and discharge protection, intelligent current flow and temperature protection.

With **SP Max Drive** using Max Core technology we can offer more work time, more power, more recharges and ultimately better performing tools.

COMPONENT COMMUNICATION

BATTERY, CHARGER AND UNIT TALK TO EACH OTHER

SP MAX LITHIUM BATTERIES

The **SP Max Drive** cordless range is powered by next-gen INR chemistry battery cells. The INR chemistry combines the safety and low resistance of Manganese and the high energy capacity of Nickel. When we combine these cells with Max Core electronics, the result is a battery pack with superior performance and safety or in simple terms, the very best available.

CORDLESS TOOLS

> **12v**

COMPACT, LIGHTWEIGHT & POWERFUL

This range is widely used in the automotive industries where size is important due to inaccessibility on today's vehicles and machinery. As most of the jobs are not repetitious, usually one battery will last the whole workday, so many of SP MAX DRIVE's 12V models are available with one or two batteries.

12V COMBO KITS

SP82144

12V MECHANICS POWER WRENCH COMBO KIT 2 PIECE

SET INCLUDES

- 12v Mini 3/8" Dr Impact Wrench (P/N: SP81113BU)
- 12v Mini 3/8" Dr Ratchet Wrench (P/N: SP81613BU)
- 10 Pc Metric Impact Socket Rail Set (P/N: SP20250)
- 2.0Ah Max Lithium Battery Packs - 2x (P/N: SP81981)
- 12v Charger (P/N: SP81893)

SP81114

12V 3/8" DR MINI IMPACT WRENCH KIT

SET INCLUDES

- 12v Mini 3/8" Dr Impact Wrench (P/N: SP81113BU)
- 10 Pc Metric Impact Socket Rail Set (P/N: SP20250)
- 2.0Ah Max Lithium Battery Packs - 2x (P/N: SP81981)
- 12v Charger (P/N: SP81893)
