

Self Priming Pump

Applications

- Paper Pulp
- Waste Water
- Process water
- Sludge and slime
- Meat packing plants

Features & Benefits

BGJ non-clogging self priming solid handling pumps handle a wide range of heavy duty pumping problems for industries such as paper pulp, engine plants, canneries, waste water, sludge and slime. They also offer great design flexibility. The pump can be mounted high and dry above the liquid. The pump capable of handling solids and stringly materials easily.

Operation Data

Pump Size	DN 50 up to 300 mm
Capacities	up to 360 l/s
Heads	up to 60 Meter
Speed	650 - 3200 rpm
Maximun Suction	up to 7 Mtr
Operating Temperature	up to 80°C*

* The material of pumps differ according to the type of pumped liquid, operating temperature and pressure.
