

B Flow

Features & Benefits

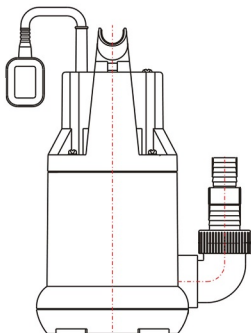

The B-Flow series made from high quality, corrosion resistant plastic that ensures longevity and reliability in various working conditions. The plastic materials makes the pump lightweight, making it easy to handle, install and relocate as needed. The pump is designed to be fully submersible, offering flexibility for various pond setups and easy underwater installation.

Applications

- Ponds
- Fountains
- Dewatering
- Waterplays
- Landscaping

Operation Data

Pump Size	G1 & G1½
Capacities	up to 15500 L/h
Heads	up to 9.5 Meter
Speed	2900 rpm
Motor Rating	up to 1.1 kW
Operating Temperature	up to 40°C*

Performance Range
