

Tool Storage

Industrial Storage Cabinet	9-10
Portable Tool Bag	11-14
Combination Case	14
Safety Case	14
Metal Toolbox	15-16
Aluminum Alloy Toolbox	16
Plastic Toolbox	16-17
Metal Tool Trolley	17-21

Rotatory type Industrial storage cabinet

Ultra-large capacity
Storing a maximum of 448
specifications of materials

Two specifications available

Rotary pallet to maximize space utilization

Precision servo motor for precise control of cargo channel blocking

Drawer design for quick replenishment via drawer handles on both sides

Integrated screen protection design

Intelligent Rotatory Industrial Storage Cabinet

- Using one machine to manage 448 types of high-value materials, saving 80% of material receiving time, improving production and work efficiency
- Industrial innovative design to control pallet rotation via precise rotation sensor
- Free allocation of cargo channels to accommodate larger items
- Receiving method: IC card, ID card, 2D code and face recognition

Storage category

- Industrial consumables, office supplies and fasteners
- Hardware tools, abrasives, adhesives, cutting tools and spare parts, etc

Note: This product does not contain tools and materials displayed

Note: the material receiving time can be saved by 80%, which is calculated based on the storage cabinets used in SATA production base and only for reference

No.	Product Name	L×W×H(mm)	Capacity			
95281	336 cargo channels	1950×1000×800	336 types	-	-	-
95282	448 cargo channels	1950×1000×800	448 types	-	-	-

Spring type Industrial storage cabinet

All-weather material
Autonomous quick access

Labor-saving, trouble-free and accurate

Anti-dropping drawer-type tray for convenient and fast replenishment

Software shopping cart experience for selecting multiple materials at one time

Flexible deployment of single motor or dual motors to cover various shapes of materials

Cargo channel supporting access of small materials

Intelligent Spring-type Industrial Storage Cabinet

- Suitable for various materials with wide utilization rate
- Supporting access of multiple materials simultaneously
- Screen: 10-inch touch screen

Storage category

- PPE, abrasives, jigs, cutting tools, etc

Note: This product does not contain tools and materials displayed

No.	Product Name	L×W×H(mm)	Capacity			
95271	60 cargo channels	1950×1130×878	60 types	-	-	-

Weight sensing Industrial storage cabinet

Automatic identification Parts received
Precise counting

High-precision sensor for accurate identification of each small screw

Resin roller adopted at the bottom for smooth door opening and closing

Open access for receiving various materials

Extra-large Windows and 75mm reinforced and toughened glass door

Intelligent Weight-Sensing Industrial Storage Cabinet

- Each part box provided with an independent aero-class sensor at the bottom for accurately calculating the number of parts to be received, ensuring correctness of the production process, and helping high-end manufacturing industries under the Made in China 2025 national action program
- Receiving method: IC card, ID card, 2D code scanning and face recognition
- Screen: 10-inch touch screen

Storage category

- Industrial consumables, standard parts, fasteners and PPE
- Abrasives, cutting supplies, etc

Note: This product does not contain tools and materials displayed

No.	Product Name	L×W×H(mm)	Capacity			
95272	30 cargo channels	1950×1190×800	30 types	-	-	-

Industrial storage cabinet

Shared

Borrowing and returning at any time

Sharing, saving and efficient

Front mechanical locking door for convenient and quick replenishment and maintenance

Built-in LED lighting for easy access of goods

Intelligent Industrial Grid Storage Cabinet

8 doors

Small door: 600x427x300
Big door: 600x427x909

12 doors

doors: 600x427x300

20 doors

Small door: 600x427x148
Big door: 600x427x300

88 doors

doors: 500x90x100

- Flexible and capable of cascading with spring cabinet, weighing cabinet, integrated grid cabinet and other hosts
- Capable of holding big items and adding weighing module
- Used with integrated storage cabinets

No.	Specification	L×W×H(mm)	Capacity			
95251	8 doors	1950×1000×600	8 types	-	-	-
95252	12 doors	1950×1000×600	12 types	-	-	-
95253	20 doors	1950×1000×600	20 types	-	-	-
95254	88 doors	1950×830×500	88 types	-	-	-

Integrated Intelligent Industrial Storage Cabinet

7 doors

Small door: 600x427x300

Intelligent Spring-type Industrial Storage Cabinet

Storage category

- Industrial consumables, office supplies and fasteners
- Hardware tools, abrasives, adhesives, cutting tools and spare parts, etc

Note: This product does not contain tools and materials displayed

Portable Tool Bag

- 600D polyester cloth, durable
- Thickened lining, wear-resistant, effectively prevent sharp objects from puncturing

No.	Spec.	L×W×H(mm)			
95181	13"	330×215×250	-	10	8.6
95182	16"	380×260×300	-	10	9.8

▲ Excluded from lifetime warranty terms.

95187 Open Tote Tool Bag 19"

- Full opening design, very convenient to store large items

No.	Spec.	L×W×H(mm)			
95187	19"	400×200×280	-	2	4.7

▲ Excluded from lifetime warranty terms.

Upgraded Products

95216 Tool Backpack

- 1680D Oxford cloth
- Plastic bottom, wear-resistant and dampproof
- With reflective warning strip, safer to use at night

No.	L×W×H(mm)			
95216	300×180×400	-	-	1.31

▲ Excluded from lifetime warranty terms.

Portable Tool Bag

- 900D polyester cloth, durable
- Thickened lining, wear-resistant, effectively prevent sharp objects from puncturing

No.	Spec.	L×W×H(mm)			
95183	14"	360×230×300	-	10	11.4
95184	17"	440×330×300	-	10	19.1

▲ Excluded from lifetime warranty terms.

95188 Trolley Tool Bag 17"

- Pull rod design with caster, can store a large number of items, easy to carry

No.	Spec.	L×W×H(mm)			
95188	17"	430×240×380	-	1	5.4

▲ Excluded from lifetime warranty terms.

95211 4-Pocket Tool Pouch

- 900D polyester fabric, durable
- Supporting bag mouth, easy to use tools in working environment

No.	L×H(mm)			
95211	110×235	-	20	1.8

▲ Excluded from lifetime warranty terms.

95185 Portable Tool Bag 16"

- 600D polyester cloth, durable
- Thickened lining, wear-resistant, effectively prevent sharp objects from puncturing

No.	Spec.	L×W×H(mm)			
95185	16"	400×220×250	-	2	5.8

▲ Excluded from lifetime warranty terms.

95193 Portable Tool Bag 16"

- 900D polyester cloth, durable
- Convenient storage of notebook computers and documents

No.	Spec.	L×W×H(mm)			
95193	16"	400×180×300	-	6	6.7

▲ Excluded from lifetime warranty terms.

95212 6-Pocket Tool Pouch

- 900D polyester fabric, durable
- Supporting bag mouth, easy to use tools in working environment

No.	L×H(mm)			
95212	250×280	-	20	8.1

▲ Excluded from lifetime warranty terms.

95186 Electricians Tool Bag 16"

- Specially designed for electricians, multi-layer flip can facilitate the storage and use of tools

No.	Spec.	L×W×H(mm)			
95186	16"	400×240×290	-	2	4.7

▲ Excluded from lifetime warranty terms.

Upgraded Products

95198 Tool Backpack 18"

- 1680D polyester cloth, durable
- Convenient storage of notebook computers and documents

No.	Spec.	L×W×H(mm)			
95198	18"	300×180×430	-	6	7.4

▲ Excluded from lifetime warranty terms.

95213 8-Pocket Tool Pouch

- 900D polyester fabric, durable
- Supporting bag mouth, easy to use tools in working environment

No.	L×W×H(mm)			
95213	250×320	-	20	11.2

▲ Excluded from lifetime warranty terms.

95215 Tool Belt

- 900D polyester fabric, durable
- Supporting bag mouth, easy to use tools in working environment

No.	Small Bag(mm)	Waistband(mm)			
95215	190×100	1200×50	-	40	7.6

▲ Excluded from lifetime warranty terms.

95219 Power Tool Pouch

- Specially designed for lithium electric tools such as drills, convenient to carry
- Adjustable buckle, can firmly bind lithium battery tools
- The 4 bits pockes, can place spare bits
- Using 1680D waterproof Oxford cloth, with better wear resistance and durability
- It needs to be used in conjunction with the 95215 work belt

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W(mm)			
95219	225×140	-	-	-

▲ Excluded from lifetime warranty terms.

95238 Heavy Duty Tool Belt

- Ergonomic structural design for more comfortable use
- The length of the belt can be adjusted to meet the needs of different users
- The widened design at the rear provides better protection for the waist
- Thickened pads are added to the main load-bearing parts to prevent deformation and breakage
- Thickened edging, fixed with rivets, durable and long-lasting
- Using 1680D waterproof Oxford cloth, with better wear resistance
- Paired with 95244 quick release belt clip, quickly select and hang different quick release tool pouch

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W(mm)			
95238	1220×145	-	-	-

▲ Excluded from lifetime warranty terms.

95217 Tool Pouch with Cover

- 600D Oxford cloth
- With a folding cover, which can prevent loss and does not affect the access of tools
- Leather bottom, wear-resistant and dampproof

No.	L×W×H(mm)			
95217	170×70×240	-	-	0.34

▲ Excluded from lifetime warranty terms.

95220 Tool Pouch Type A

- The unique multi slot bag design can better meet the needs of users for tool loading
- Support type pocket, convenient for users to access tools during work
- Using 1680D waterproof Oxford cloth, with better wear resistance
- It needs to be used in conjunction with the 95215 work belt

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W(mm)			
95220	295×220	-	-	-

▲ Excluded from lifetime warranty terms.

95239 Quick Release Power Tool Pouch

- Specially designed for lithium electric tools such as drills, convenient to carry
- Modular disassembly and assembly structure design, convenient and fast disassembly
- Adjustable buckle, can firmly bind lithium battery tools
- The 4 bits pockes, can place spare bits
- Using 1680D waterproof Oxford cloth, with better wear resistance and durability
- Paired with the 95238 heavy duty tool belt, it can be quickly disassembled
- Paired with the 95243 bracket for quick release tool pouch, it can be hung on the wall for easy access

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W(mm)			
95239	300×200	-	-	-

▲ Excluded from lifetime warranty terms.

95218 4-Pocket Tool Pouch

- 600D Oxford cloth
- Open pocket/zipper pocket and shrink pocket can meet the carrying needs of different tools
- Metal groove design is convenient for inserting and hanging different tools

No.	L×W×H(mm)			
95218	330×80×155	-	-	0.33

▲ Excluded from lifetime warranty terms.

95226 Backpack Type A

- Thickened lining, wear-resistant, can effectively prevent sharp objects from piercing
- Widen the shoulder straps for a more comfortable use
- The capacity of the bag has increased, allowing for the carrying of more items
- Multiple layers of partitions inside the package can separate and place more tools or documents
- Using 1680D waterproof Oxford cloth, with better wear resistance

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W×H(mm)			
95226	280×160×445	-	-	-

▲ Excluded from lifetime warranty terms.

95240 Quick Release Tool Pouch Type A

- Modular disassembly and assembly structure design, convenient and fast disassembly
- Multi functional pocket that can accommodate tools of different specifications
- The open magic strap on the side can firmly bind different tools
- Standard tape measure buckle, can hold tape measure
- Using 1680D waterproof Oxford cloth, with better wear resistance and durability
- Paired with the 95238 heavy duty tool belt, it can be quickly disassembled
- Paired with the 95243 bracket for quick release tool pouch, it can be hung on the wall for easy access

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W(mm)			
95240	275×150	-	-	-

▲ Excluded from lifetime warranty terms.

95241 Quick Release Tool Pouch Type B

- Modular disassembly and assembly structure design, convenient and fast disassembly
- The hammer rack for activities can be used to mount hammers, making it easy to access during work
- Multi specification bag type, can hold various tools or items
- Using 1680D waterproof Oxford cloth, with better wear resistance and durability
- Paired with the 95238 heavy duty tool belt, it can be quickly disassembled
- Paired with the 95243 bracket for quick release tool pouch, it can be hung on the wall for easy access

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W(mm)			
95241	270×190	-	-	-

▲ Excluded from lifetime warranty terms.

95244 Quick Release Belt Clip

- Using high-quality engineering plastics, sturdy and durable
- Special structural design that can be quickly disassembled
- It needs to be used in conjunction with the 95243 bracket for quick release tool pouch and the 95238 heavy duty tool belt
- Can quickly mount 95239/95240/95241/95242 quick release tool pouch

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W×H(mm)			
95244	84×52×24	-	-	-

▲ Excluded from lifetime warranty terms.

95195 Professional Portable Tool Bag with Plastic Bottom 20"

- 1680D dual-layer waterproof Oxford fabric for firmness and durability
- External sidekick for easy access
- Bottom made from engineering plastic against wearing, tapping and humidity

Note: Toolkit is made from soft material with size subjected to actual products.

No.	Spec.	L×W×H(mm)			
95195	20"	500×250×380	-	4	9.4

▲ Excluded from lifetime warranty terms.

95242 Quick Release Tool Pouch Type C

- Modular disassembly and assembly structure design, convenient and fast disassembly
- The open magic strap on the side can firmly bind different tools
- Multi specification bag type, can hold various tools or items
- Chain hook, capable of attaching circular items such as adhesive tape
- Standard tape measure buckle, can hold tape measure
- Using 1680D waterproof Oxford cloth, with better wear resistance and durability
- Paired with the 95238 heavy duty tool belt, it can be quickly disassembled
- Paired with the 95243 bracket for quick release tool pouch, it can be hung on the wall for easy access

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W(mm)			
95242	280×170	-	-	-

▲ Excluded from lifetime warranty terms.

Professional Double-Opening Portable Tool Bag

- 1680D dual-layer waterproof Oxford fabric for firmness and durability
- Opened on both side for reasonable tool placement and easy access
- Bottom made from engineering plastic against wearing, tapping and humidity

Note: Toolkit is made from soft material with size subjected to actual products.

No.	Spec.	L×W×H(mm)			
95189	14"	350×200×280	-	2	5.5
95190	17"	400×225×335	-	2	6.8

▲ Excluded from lifetime warranty terms.

Professional Portable Tool Bag

- 1680D dual-layer waterproof Oxford fabric for firmness and durability
- External sidekick for easy access
- Reflective warning strip provided for safety at night

Note: Toolkit is made from soft material with size subjected to actual products.

No.	Spec.	L×W×H(mm)			
95196	14"	380×260×300	-	8	11.7
95197	17"	430×300×330	-	5	11.2

▲ Excluded from lifetime warranty terms.

95243 Bracket For Quick Release Tool Pouch

- Made of high-quality cold-rolled sheet, sturdy and durable
- Excellent spraying process, beautiful and wear-resistant paint surface
- Standard configuration includes 3 quick release belt clips, which can be used to hang 95239/95240/95241/95242 quick release tool pouch

Note: The tool pouch is made of soft material, please refer to the actual product for size.

No.	L×W×H(mm)			
95243	600×45×16	-	-	-

▲ Excluded from lifetime warranty terms.

95191 Professional Opening Portable Tool Bag 14"

- 1680D dual-layer waterproof Oxford fabric for firmness and durability
- Opening design for holding large items and easy access
- Bottom made from engineering plastic against wearing, tapping and humidity

Note: Toolkit is made from soft material with size subjected to actual products.

No.	Spec.	L×W×H(mm)			
95191	14"	370×240×280	-	2	5

▲ Excluded from lifetime warranty terms.

95199 Professional Portable Tool Bag 16"

- 1680D dual-layer waterproof Oxford fabric for firmness and durability
- Box design for orderly tool storage
- Bottom made from engineering plastic against wearing, tapping and humidity

Note: Toolkit is made from soft material with size subjected to actual products.

No.	Spec.	L×W×H(mm)			
95199	16"	400×230×280	-	2	4

95502

- Quick folding, convenient and fast
- Comes with a built-in binding rod securely securing large items
- Aluminum alloy load-bearing plate sturdy and lightweight

95503

- Quick folding, convenient and fast
- Castors with brake pedals for stable braking
- Steel pipe keel support, sturdy and durable

95504

- The load-bearing plate has anti slip patterns, ensuring stable transportation of goods
- The design of handle holes on both sides of the car panel makes it easy to carry
- Steel pipe reinforcement, no deformation of transported items, sturdy and durable

95505

- Quick full folding design reduces storage space
- Special structural design, sturdy and durable
- Multiple storage baskets can be stacked
- When stacked for use, the load should be distributed to each storage basket

109560 45Pc. Mechanics Tool Set

- A wide range of professional tools, including ratchets, sockets, pliers, hammers, X-beam wrenches, double box end wrench, hexagonal sockets, screwdriver sets, adjustable wrenches, pliers, and feeler gauges.
- Customizable EVA kits with flexible configurations (rail, power, oil, auto repair, DIY users)
- With different sets of application scenarios (auto repair, mechanics and other fields), the tools are neatly organized and more efficiently used, which facilitates the user's 5S management.
- X-beam wrench design is more ergonomic, the operation of the hand and the wrench area of 5 times, can be used for a long time when the hand fatigue, to improve working comfort.
- The EVA tool sets in the toolbox are clearly categorized and labeled, making it easy for users to quickly find the tools they need.

No.	L×W×H(mm)
