A Series Screwholding Screwdriver, Slotted

- Screw clamping function for tightening non-magnetic screws with one hand in a narrow space
- Shank made from imported SVCM+ material and subjected to heat treatment for higher torque
- High-strength nylon socket for longer service life
- Ergonomic push-pull knob for easy operation
- Handle made from engineering acetic acid material with stronger impact resistance and better oil resistance

09309	Slotted Screwdriver with Rubber Handle (5*75mm, 5*100mm, 6*150mm) Phillips Screwdriver Set with Rubber Handle (#1*75mm, #2*100mm, #2*150mm)	-	6	7.6

09334 5Pc. G Series Screwdriver Set, Slotted & Phillips Tips

- Through automatic plastic injection, the tri-color handle offers high accuracy and comfortable grip feeling
- The ergonomic designed triangular handle offers higher torque outputs and better anti-impact features
- Please clean the oil on blade tip to avoid slip when using
- Made of Cr-V-Mo material, the blade offers high hardness and tenacity with more durability and longer lifecycle
- Manganese phosphate plated blade tip offers accurate dimensions and good antirust feature

Note:

- Please check before using to avoid split handle and ensure the blade without deformed or broken
- Please select proper specification according to the screw size to avoid breaking the screwdriver or screw
- Can not be used as pry bar, chisel nor impact driver

Screwdriver Spec.

Phillips:

#0 × 75mm

→ Shank length 75mm

→ The groove number of the Phillips screwdriver corresponding to the bit is PH0

Slotted:

5.5 × 125mm

→ Shank length 125mm

→ Screwdriver bit width 5.5mm

Pozidriv:

PZ0 × 75mm

→ Shank length 75mm

→ The groove number of the Pozidriv screwdriver corresponding to the bit is PZ0

Torx®:

T-8 × 75mm

→ Shank length 75mm

→ The groove number of the Torx® screwdriver corresponding to the bit is T8

Tool Knowledge Station

SATA Ratcheting Screwdriver

Rear cover of SATA 6001 standard ratcheting screwdriver handle capable of storing up to 12 6.3MM replacement bits

Ergonomic T-shaped ratcheting screwdriver handle for comfort

Ultra-short ratcheting screwdriver for use in narrow spaces

Efficiency improved by 40% with SATA ratcheting screwdriver compared with traditional SATA hand screwdriver

Various accessories and extension rods for various conditions and angles

09335 6Pc. G Series Screwdriver Set, Slotted & Phillips Tips

T-shaped handle for easy rotation and comfort.

09341 24Pc. T-handle Ratcheting Screwdriver Set

- The bi-color handle is made of composite material composed of engineering plastic PP + high-grade elastomer TPR, soft to the touch. T-Handle design for easy rotation and comfortable grip
- Used with 20 kinds of high hardness S2 material bits to provide multiple functions
- Used with a variety of extension bars in more combinations to adapt to various conditions
- Used with 150mm flexible extension bar for operation at different angles
- Made of nylon fabric the tool bag is waterproof and durable, as well is easy to carry

03141 6Pc. Precision Screwdriver Set, Slotted & Phillips Tips

- All screwdriver bits made of CrVMo through special heat treatment, ensuring high hardness and toughness. Hardness above 52HRC (Rockwell hardness)
- Precisely designed and manufactured chunk capable of locking the required bits safely
- Screwdriver rod made of professional aviation aluminum, featuring high strength, light weight and high corrosion resistance; miniature bits stored inside the screwdriver rod
- Screwdriver with holder made of high quality manganese steel and treated by fine polishing and electroplating, easy to carry
- Stylish lightweight pen-type design, being your good helper in household use

No.	Spec.

Miniature Screwdriver Description

Phillips: PH0 X 40mm
 → Shank length 40MM
 → The groove number of the Phillips screwdriver corresponding to the bit is PH0

Phillips: PH0-2 X 40mm
 → Shank length 40MM
 → The groove number of the Phillips screwdriver corresponding to the bit is PH0-2

Slotted: 1.0 X 40mm
 → Shank length 40MM
 → Screwdriver bit width 1.0MM

Torx®: T5 X 40mm
 → Shank length 40MM
 → The groove number of the Torx® screwdriver corresponding to the bit is T8

Hex Key: 1.3 X 46mm
 → Shank length 46MM
 → Hex key edge-to-edge size 1.3MM

Ball End Hex Key: 1.3 X 46mm
 → Shank length 46MM
 → Representative hex key edge-to-edge size 1.3MM

09320 13Pc. Electronic Tool Set

Common bit

Distortion and destruction due to shock load limited exceeded on tip bearing too much stress

Broken

Common bit after impact test

Impact-resistance bit

Function end subjected to CNC for high accuracy

Impact resistance

Plastic box packaging to facilitate storage
10pc display packed

Surface subjected to manganese phosphate treatment for rust protection

OK

Service life prolonged due to impact force reduced and tip load reduced thanks to the deformed area of the neck to effectively dispersing the stress

Impact-resistance bit after impact test
