

Mini Roller Heat Transfer Machine

Product Features

1. Automatic shut off.
2. Three putting and two receiving devices.
3. Pneumatic pressurizing equipment.
4. Oil deposit with rotary joint-oil return device.
5. Emergency stop device.
6. Blanket from USA Dupont, with 100% Nomex.
7. Main body speed and inverter can be adjustable
8. Paper tension adjusting equipment.
9. Exhaust filter in the machine cabinet.
10. Individual adjustment on speed for paper winding device.

Power saving
Easy Operation
Convenient
