Industrial Foldable Slim Work Light (400LM)

ST90620

With powerful 400-lumen main and 100-lumen top lights, a up to 8-hour run time, and its easy-to-position flex head design, this SATA Flex Head Work Light is the perfect solution for any low light situation. Its 180° swing/180° swivel flex head, dual back/base magnets, and 180° swivel hook allows precision positioning for perfect light aiming every time. IP54 protection class rated for outdoor use.

FEATURES

- Dual LED 400 (front) and 80 (top) lumen ratings for high intensity illumination
- Ultra-thin aluminum alloy lamp head designed for small spaces
- Light pivots 180° and rotates 180° to direct the beam where you need it
- IP20 dust and moisture proof design
- Lightweight and durable design
- Efficient LED strip made with COB technology for a wide range of applications
- Magnet in base and back for easy positioning and hand free use
- 180° swivel hook for easy positioning and hands free use
- Battery level indicated by LED display
- Lithium ion battery provides up to 8 hours of run time
