

BIOBACT clean

Sustainable development and production

EMAS:

- Continuous improvement of environmental performance
- Annual sustainability report
- Energy and water management
- Social Fairness

DIN ISO 14001:

- Continuous improvement in reducing waste and CO2 emissions, and saving of energy, water and material consumption

ISO 50001:

- Continuous improvement of energy management: performance, efficiency, security, use and consumption

A.I.S.E.-Charter:

- Safe and sustainable manufacturing of cleaning products

DIN ISO 9001:

- Continuous improvement of management processes and customer satisfaction
- Established quality management system in product development and production

green-Effective® Biotechnological all-purpose cleaner

■ Eco-efficient performance with eco-effective product design

User and environmental safety at the highest cleaning performance

- 100% used rHDPE bottles
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration

Complete biodegradability

- BIOBACT clean with all its ingredients is totally biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard*

*for more information please visit www.wmprof.com

Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Production widely independent of crude oil: 93% of organic carbon processed in BIOBACT clean originates from renewable plant resources which enables a production that is widely independent of crude oil
- Active water stewardship maintaining an own fresh and waste water treatment

Full transparency - complete ingredient declaration

<5% anionic surfactants (sodium laureth sulfate), <5% non-ionic surfactants (castor oil EO adduct), perfumes
Specific ingredients: water, alcohol, citrates, bacteria spores

Traditional German quality - driving your durable business development

- More than 25 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

BIOBACT clean

green-Effective® Biotechnological all-purpose cleaner

- **Cleaning efficiency** ■ **Long-lasting cleanliness** ■ **Material friendly**

Product profile

- BIOBACT clean is a pH-neutral cleaning detergent which cleans and eliminates bad odours in one step.
- Instead of simply masking bad odours, BIOBACT clean effectively breaks down organic substances, such as urine and food residues which are the root cause of foul-smelling environment. The added perfume leaves a nice and pleasant scent in the room.
- The regular use of BIOBACT clean even prevents from new build-up of organic dirt (such as cellulose, grease, proteins, and starch).
- By the complete abandonment of hazardous ingredients, BIOBACT clean is a material friendly all-purpose cleaner for frequently used areas, waste management, public toilets / buildings.
- Made of 100% natural microorganisms, BIOBACT clean is safe in use and safe for the environment.
- BIOBACT clean comes in a highly sustainable bottle made of 100% recycled plastic sourced from the „Yellow bag“ (post-consumer recyclet).

Application and Dosing

Dose in relation to application and degree of soil. Follow below instructions.

Shake before use.

250 mL/L

Initial Cleaning: Start with 250 ml/L in the first 2-3 days.

Maintenance and odour control cleaning: Swab the surface with a damp cloth or mop.

10-50 mL/L

Floor cleaning: Can be applied manually or with auto scrubbers.

Surface cleaning: Wipe the surface wet or damp with a clean cloth. Leave surface wet. Allow solution to work.

Area of application

- Ideally suitable for all water resistant floorings and surfaces, e.g. tiles, rubber, linoleum, PVC and ceramic in bath and sanitary areas. It can also be used in gyms, locker rooms or other areas where odour control cleaning is needed.
- Shake well before use.
- **NOTE:** Do not mix with disinfectants, bacteriological products, strongly alkaline or acid liquids. This will significantly reduce its effect.

Product safety, storage and environmental instructions

Safety: For professional use only. Keep away from children. Do not mix with other products. Test material compatibility before use. For further information, see Safety Data Sheet.

Storage: Store at room temperature in the original container. The storage and transport temperature of BIOACT clean must not exceed 30°C. Keep from freezing.

Environmental: Only give completely emptied packaging in the recommended waste container. Proper dosing saves costs and minimises environmental impact. Compared to other products only a small amount is required.
