Applications You Can Use For Dock Ramp

- Heavy-duty solution for providing ground to dock ramp access to high dock warehouse & container.
- Dock-Ramp is a leader in portable loading ramps.
- The movable hydraulic dock ramp with manual hydraulic control, needn't other power & almost needn't maintenance.
- Through the use of manual pump, the tires can be raised to lift-off when the mobile dock ramp is in use & the tires can be let down when you need to move the dock ramp.
- It is also easy & convenient to move and change the working location of the dock ramp by the manpower or forklift traction.
