

D250

Door Access & Time Attendance System

Usb

Excel

Fingerprint

Card

Password

A card ID, fingerprint, password, or a combination of all three are supported by the access control and time attendance system D250. For those who want the conventional punch card system with a modern twist, the D250 makes an in-out door access system that is complete and reasonably priced.

Small yet Packed with Power

A remarkable 3,000 users and 230,000 transaction logs can be stored in the D250.

Speedy Recognition

New Backlight technology scanner auto turn off sensor light when not in use. Long lasting scanner life span.

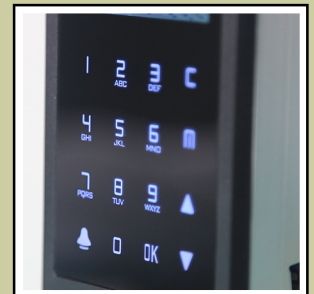

Secure and Flexible Verification

D250 provides you with a number of verification methods, including a fingerprint, password, card, or combination of options.

Ultra Smooth Touchpad

Backlight touchpad easy to see even in low light place.

Easy Data Management

All you need is a USB flash disk to transfer transaction logs to your computer. It is that easy!

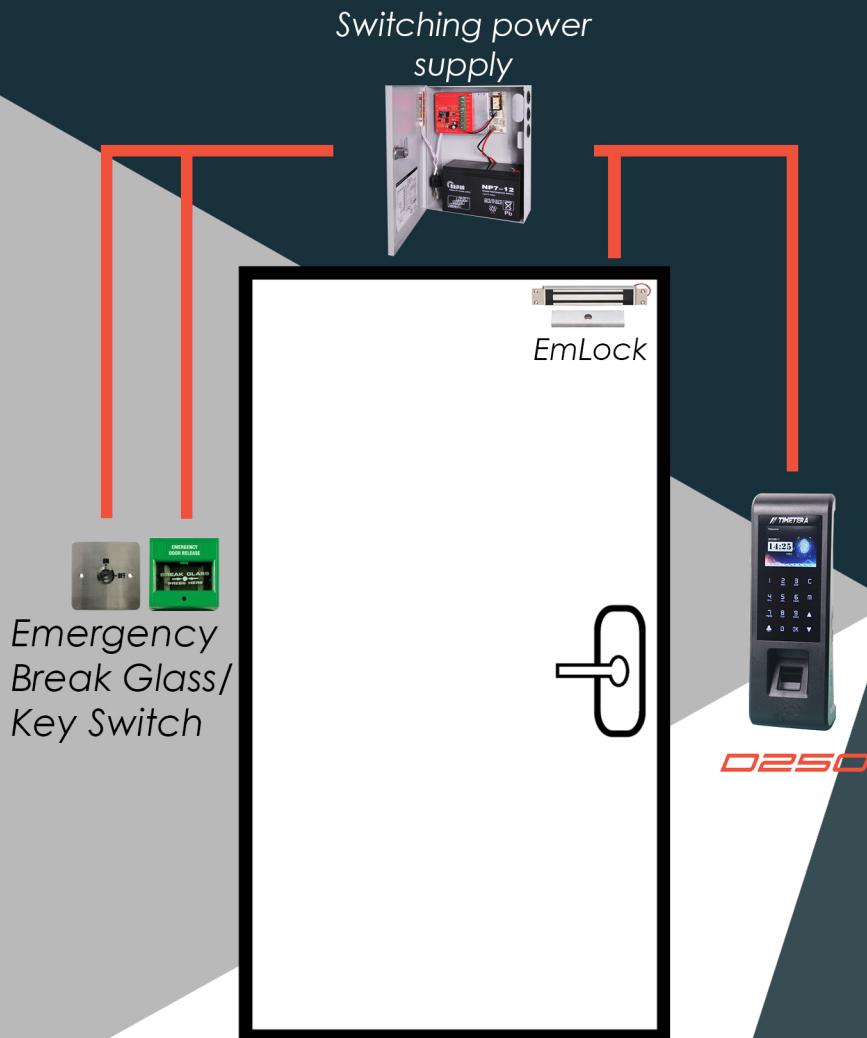

Excel Report

User friendly In Out Report with LATE and early out highlighted.
