

Imagination: That's all it takes.

Innov-is 1500

To make your sewing and embroidery so much easier, Innov-is 1500 features a large embroidery area of 260 mm X 160 mm, Advanced needle threader and USB port for computer connection.

Always at your side

Ultimate Pleasure

You'll find pleasure when your dreams become a reality. Give **innov-is** 1500 your imagination, and experience a life filled with your originality and creativity. Make your fashion, home decor, and life truly your own.

Our state-of-the-art technology makes your sewing easier, more satisfying, and more delightful than ever.

innov-is 1500 helps you realise your dreams.

What makes **innov-is** 1500 special?

- Advanced needle threader
- USB port connector for computer
- Large embroidery area of 260 mm X 160 mm
- Large workspace
- "MY CUSTOM STITCH™"
 - Allows you to create your own stitches and customise the built-in stitches on the LCD touch panel
- Top level embroidery and sewing speed
- Embroidery editing
- The instructional LCD touch panel
- From light to heavy fabric
 - Feeds any fabric with its exclusive working foot and seven feed dogs.
 - Detects the thickness of the fabric, and adjusts the thread tension to the most appropriate one
 - Lets you select the presser foot clearance from 3 levels by single press of a button

Sewing...It's Easy, yet Perfect!

Even when confronted with the trickiest of fabrics, there's no need to worry any more.

Some fabrics are slippery while other fabrics are hard to control. Relax! Brother gives you the solution.

The newly improved walking foot and the new seven feed dogs feed any fabric unbelievably smoothly.

Brother's exclusive "Auto Thread Tension"

It detects the thickness of the fabric and automatically adjusts the thread tension to the most appropriate one.

With the best thread tension you get the best stitch results.

Advanced needle threader

Pressing down the needle threader lever threads the needle. It's hassle-free!

Bobbin set-up couldn't be easier.

You can start sewing right away, because you don't have to pull up the bobbin thread. Plus, the second spool pin let you wind another bobbin as you sew!

The helpful "Start/Stop" button indicates the machine's current operating condition.

When the green light is on, the machine is ready to sew.

Everything you want to know

The LCD panel turn into a built-in instruction and sewing reference.

Help is always at hand. The LCD panel recommends the suitable settings for your sewing.

Cotton blouse decorated with the built-in stitches and beads.

The new seven feed dogs feed any fabric unbelievably smoothly.

Dream Features for All Quilters

Large workspace

With the spacious workspace, even a king size bedcover is easily manageable. Find out how easy it can be to handle fabric. Create quilting masterpieces that have never been possible before. The large workspace mean that your creativity is endless.

Heavy fabric, light fabric, or layers?

Don't give up your favourite fabric because of its thickness. Innov-is 1500 offers you a wide range of foot clearances and by using the presser foot lever, it allows you to select foot clearances from 3 different positions. You then have the freedom to choose your favourite material, whatever the thickness.

"MY CUSTOM STITCH™"

No matter what style of quilt you like, you are provided with the variety of stitches you may need. There are hundreds of built-in stitches and, of course, you can create your own stitch directly on the LCD panel by using the "MY CUSTOM STITCH™" features. Your work can now be truly and uniquely yours!

Set your hand free!

Quality quilting demands the utmost attention of your hands on the fabric.

Innov-is 1500 automatically sews a reinforcement stitch at the beginning and end of each stitch, trims both upper and lower threaders at the end of sewing, and then raises the presser foot with one press of a button. To pivot your fabric or to remove heavy fabrics from the workspace, you can use the knee lifter to raise the presser foot. These features will give your hands more freedom to concentrate on the creation happening on the fabric.

The quilting presser foot lets you clearly see the needle position. You can freely sew the quilting lines.

A modern quilting cushion with variety of handmade-looking quilting stitches built-in. The embroidery patterns are from the embroidery card No.61 (the cushion is made by Japanese quilt artist Machiko Miyotani).

Embroidery of your style

Left: A cushion with the exotic embroidery from the Embroidery Design Boutique Memory Card - Large Designs 1.

Large embroidery in a small amount of time!

With the large embroidery area of 260 mm X 160mm, you can create elaborate embroidery without the frustration of rehooping. Plus, with Innov-is 1500, creating a large area of embroidery doesn't require much time, because it has the top-level embroidery speed of up to 800 stitches per minute.

Create your own embroidery patterns.

You can edit the embroidery patterns using the LCD touch panel: changing their sizes and colours, combining them with other patterns, and so much more!

For the avid creator, Brother offers you more embroidery possibilities.

Try Brother's optional accessories and expand your world of embroidery! The embroidery cards will inspire you with their variety. Embroider your choice of patterns automatically by simply inserting a memory card into the designated slot.

Lampshade and photo frame with the built-in embroidery.

Even More Features to Enjoy Your Sewing

Innov-is 1500 has got the USB port connector for PC!

Connect Innov-is 1500 to your PC directly via the USB cable: the upgrading of the sewing machine becomes much easier. Enter www.brother.com, and install the newest upgrade program, directly through the USB cable, to keep it updated for your sewing comfort!

Moreover, you can directly link innov-is 1500 to your PC to send/save embroidery patterns to PC, or import designs downloaded from the internet in a blink of an eye.

Expand your embroidery possibilities with Brother's optional software "PE-Design 6"!

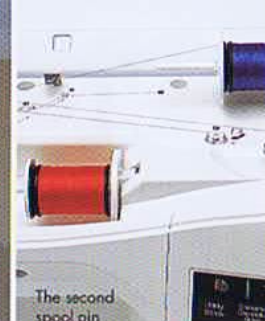

Design your own unique embroidery in a few easy steps. Scan your favourite drawings & photos, or use clip art images to transform into embroidery.

PE-Design 6 provides you with an incredible variety of stitch variations: Colour gradation, Colour blending, Stamping effect, and also much more! You can also edit designs in many ways. PE-Design 6 gives you unlimited creativity to fully enjoy your sewing!
