Designed with sticky pad functions. The UV light tubes mounted deep inside, with mirror-surface reflector which doubles the amount of UV lights thrown up to attract flies.

Sticky pad is laid flat ABOVE the UV light tubes, ensuring a 100% catch with the insects flying straight into the sticky pad BEFORE reaching the lamps.

Specifications

1. 2 X 10 watts UV light tubes
2. Mirror-finished reflector below light tubes for higher reflected UV aura.
3. Sticky pad size - 12.5 cm (B) x 43 cm (L)
4. Pheromone (Muscalure) added into sticky pads' adhesive to enhance attraction for flies
5. Strong adhesive that 'graps' insects, UV-stabilized that remains stable and sticky for more than 6 months under UV lights.
6. Transparent sticky pads that insects will literally fly straight into.
7. Uses electronic ballast for lower electricity consumption. (220/240 v)
8. Net weight: 1.0 kg, length: 15.5 cm, width: 20 cm, height; 61 cm, length
9. Comes with 2 m electrical cord with 3 pin plug.
