TIGER MILK KING BOTANICAL BEVERAGE

THE FIRST DEFENCE LINE OF HUMAN BODY

Lungs are the “protective umbrella” for internal organs, and **breathing** is the most important job for lungs. Just like an air purifier, it is a place for air exchange, inhaling and exhaling to maintain human life activities.

However, the lungs are not air purifiers which can often clean or replace the filter net, they are exposed to various external attacks such as air pollution, heavy haze, dust, second-hand smoke, etc. The respiratory system is always the first to be violated, and the lungs that serve as the fortress of the respiratory system are inevitably subjected to the huge attacks.

LUNGS in Trouble

PNEUMONIA,

the 2nd cause of death in Malaysia

ISCHAEMIC HEART DISEASES **13.9%**

PNEUMONIA **12.7%**

CEREBROVASCULAR DISEASES **7.1%**

TRANSPORT ACCIDENTS **4.6%**

MALIGNANT NEOPLASM OF TRACHEA, BRONCHUS AND LUNG **2.3%**

**by Department of Statistics Malaysia,
Statistics on Causes of Death, Malaysia, 2018*

“Rotten Lungs”

STARTS FROM INFLAMMATION...

Most lung abnormalities like cold and cough, shortness of breath or pneumonia are caused by inflammation!

MORTAL PNEUMONIA

- Pneumonia is an acute lung inflammation caused by bacteria or viruses.
- 450 million people worldwide suffer pneumonia every year, and 4 million people die because of it.

ASTHMA IS A MATTER OF LIFE AND DEATH

- Most asthma patients have narrower respiratory tract, when exposed to allergens, the tract will contract which leads to difficulty in breathing.
- More than 300 million people worldwide are affected by asthma, and 250,000 people die of asthma every year!

TIGER MILK
Health Drink

Healthier Lungs with Strengthened Respiratory System

*Tigrox Tiger Milk King is a health care formula which used Tiger Milk Mushroom as main ingredient. Tigrox is used to **improve** respiratory system problems and **enhance** respiratory system function.*

Tiger Milk Mushroom:

The Rare

NATIONAL TREASURE

A unique and **precious medicinal mushroom** of Malaysia rain forests.

According to ancient records, tiger milk mushroom is precious and rare, and **regarded as a national treasure** because it is buried deep under the ground and not easy to be found.

In the era of underdeveloped technology, **indigenous people rarely get sick** as tiger milk mushroom solved the threat of poor medical care and has been widely used as home remedy.

According to the diary of European Administrative Officer "The Diary of John Everlyn", Tiger Milk Mushroom has always been a **precious gift from indigenous people to foreign ambassadors**.

Tiger Milk Mushroom:

CENTURIES-OLD

Royal Traditional Formula

With more than 400 years of medicinal history, tiger milk mushroom was used by Malaysian indigenous people to treat cough, asthma, bronchitis, vomiting, fever, etc.

Today, it is also the key research material of research institute. It has been confirmed by scientific research that the active ingredient of tiger milk mushroom has high activity and **can effectively enhance lung health and enhance human immunity.**

KNOWLEDGE ENCYCLOPEDIA

Malaysian indigenous people believe tiger milk mushroom was grown at the spot where a tigress dropped its milk while feeding the cubs. The sclerotium is white and gives a milk-like solution; and it even tastes like milk, hence a lot of people mistakenly think it is really "tiger milk"!

5

Tiger Milk Mushroom:

WONDERS OF ANTI(S)

Studies have shown that the sclerotia of tiger milk mushroom contains various active ingredients such as **polysaccharides**, **caffeic acid**, **p-coumaric acid** and **beta-glucan** to exert its five major functions.

ANTI-ILLNESS

Polysaccharide in its sclerotia is a very good immunomodulatory substance. Polysaccharides enter the body, can stimulate the body to **produce innate immune cells** such as macrophages, natural killer cells and T lymphocytes, strengthen the body's defence against disease-like viruses.

ANTI-ALLERGY

Tiger milk mushroom has an **anti-inflammatory** effect. It can effectively restore cellular metabolism, reduce body's excessive reaction to allergens, help **improve respiratory allergies** (asthma, cough), and is beneficial to heavy smokers and people who are exposed to polluted environment.

ANTI-INFLAMMATORY

Tiger milk mushroom can effectively **prevent the deterioration of inflammatory cells**, repair damaged tissues and metabolic functions of cells, and improve lung and respiratory system functions.

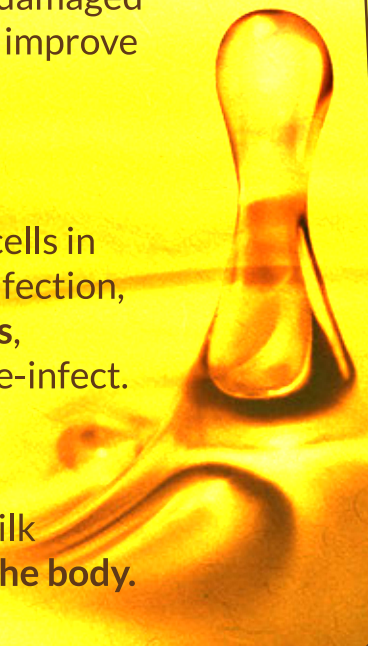

ANTI-MICROBIAL

Tiger milk mushroom can activate immune cells in dormancy, improve body's ability to resist infection, effectively **distinguish and eliminate viruses**, making it difficult for viruses and germs to re-infect.

ANTI-OXIDATION

Studies have shown that sclerotia of tiger milk mushroom can **prevent oxidative stress in the body**.

Tigrox Tiger Milk King:

5 MAJOR EFFECTS

RESOLVE THE SYMPTOMS AND ROOT CAUSES

Relieve Cough / Protect And Nourish The Lungs /
Relieve Nasal Sensitivity And Nasal Congestion / Improve Respiratory Allergies /
Enhance Body Resistance To Viruses And Self-Protection Ability

SUPPORTING *Ingredients*

LICORICE

- Contains glycyrrhizic acid that has anti-inflammatory and immune-enhancing effects, which is beneficial to the gastrointestinal and respiratory systems.
- It also helps to relieve cough, flu and sore throat.

VITAMIN C

- It can strengthen the body's immune system and prevent colds.
- Vitamin C is an antioxidant that has a skin-beating effect and helps prevent cardiovascular diseases and immune deficiencies.

CALAMANSI

- Rich in citric acid, can help to clear phlegm and mucus, and relieve discomfort of respiratory tract.

EXTRAORDINARY TIGER MILK MUSHROOM

Traditional Modernisation

1. USED TMK β-ACTIVE 50% CULTIVATED TIGER MILK MUSHROOM

Why choose TMK β-Active 50%?

- Mimicking the natural growing process of tiger milk mushroom
- Natural & organic, no chemicals involved
- No nitrogen residue

2. CULTIVATED IS BETTER THAN WILD

Why choose cultivated tiger milk mushroom?

- Rigorous control of the cultivation process
- Compliance with safety and health standard
- Stable production
- Stable quality
- Stable efficacy

ACCORDING TO RESEARCH...

- Sclerotia protein content of cultivated tiger milk mushroom is 3.6 times that of wild
- Essential amino acid content of cultivated tiger milk mushroom is 4 times that of wild
- Minerals (calcium, potassium, sodium, magnesium) contained in the cultivated tiger milk mushroom are relatively high

3. CONVENIENT TYPE HEALTH DRINK

The benefits of liquid:

- The ratio between water and ingredients is just right!
- Pocket size, easy to carry around!
- Bagged drinks, just tear and drink!

4. MANGO TASTE, SWEET AND NOT GREASY

- No bitter taste of Traditional Chinese Medicine.

WHO
NEEDS
tigrox?

**PEOPLE WITH THE
FOLLOWING SYMPTOMS
MAY CONSUME!**

*Cough / Nasal Sensitivity /
Chronic Bronchitis /
Respiratory Allergies /
Smoker / Second-hand Smoker /
Long-term Exposure To Polluted
Environment / Elderly /
Weak Body Condition*

1 SACHET PER DAY, DRINK AFTER MEALS

Trouble-Free
LUNG PROTECTION
